PROFESSIONAL SUMMARY

QA Tester with **2+ years of experience** in Software Quality Assurance, specializing in Web, API, and Database Testing. Skilled in designing and maintaining scalable automation frameworks using **Selenium WebDriver**, Java, TestNG. Proven expertise in functional testing, regression testing, integration testing, API testing, UI automation, defect tracking, and CI/CD pipelines, with a strong focus on improving test coverage and supporting reliable software releases.

SKILLS

Automation Tools :	Selenium Webdriver
Languages :	Java
API Testing :	Postman
Testing Frameworks :	TestNG, Page Object Model (POM)
Databases :	MySQL
Version Control & CI/CD :	Git, GitHub, Jenkins
Testing :	Functional Testing, Regression Testing, Smoke Testing, End-to-End Testing, Cross-Browser Testing, Manual Testing, Agile/Scrum, JIRA

EDUCATIONS

Allahabad State University | Allahabad
Bachelor of Computer Applications (BCA)

May 2021 - May 2024
CGPA : 7.0

WORK EXPERIENCES

QA Tester | Full-time
CONFIANCE MARKETING PVT. LTD

Jul 2024 - Present
On-site • Noida

- Designed and maintained automated test suites using **Java, Selenium WebDriver, and TestNG** for web applications.
- Developed reusable automation components using **Page Object Model (POM)** and data-driven testing approaches.
- Increased regression automation coverage from **30% to 85%** by automating high-value and repetitive test scenarios.
- Automated critical functional, regression, smoke, sanity, and end-to-end test scenarios across multiple application workflows.
- Integrated automated test execution with **Jenkins CI/CD** and managed source code using **Git/GitHub**.
- Analyzed automation failures, generated Extent Reports, and performed root-cause analysis for application and script issues.
- Reported and tracked defects using **Jira**, performed defect retesting, cross-browser testing, and supported release validation within Agile/Scrum teams.

Technologies / Skills Used : Java, Selenium, POM, API Testing, Manual Testing

PROJECTS

INFO EXPRESS CRM
QA Tester

Jul 2024 - Present

- Performed end-to-end manual and automation testing for CRM Express application workflows.
- Developed **Selenium automation scripts** using Java and TestNG for critical business functionalities.
- Implemented **Page Object Model (POM)** and reusable utilities to improve framework maintainability and reduce code duplication.
- Automated functional and regression scenarios and created data-driven test cases using TestNG.
- Managed automation dependencies and test execution using Maven and executed smoke/regression suites during releases.
- Performed API validation using Postman and cross-browser testing for application compatibility.
- Identified, reported, and retested defects using JIRA and participated in Agile/Scrum sprint activities.

Technologies / Tools Used : Selenium, Java, TestNG, Postman, Maven
