PROFESSIONAL SUMMARY

Automation Test Engineer / SDET with **3+ years of experience** in Software Quality Assurance, specializing in Web, Mobile, API, and Database Testing. Skilled in designing and maintaining scalable automation frameworks using **Selenium WebDriver**, Playwright, Java, TypeScript, Appium, TestNG, and REST Assured. Proven expertise in functional testing, regression testing, integration testing, API testing, UI automation, defect tracking, and CI/CD pipelines, with a strong focus on improving test coverage and supporting reliable software releases.

SKILLS

Automation Tools :	Selenium Webdriver, Playwright
Languages :	Java, TypeScript, JavaScript
API Testing :	Postman, REST Assured
Testing Frameworks :	TestNG, Playwright Test, Page Object Model (POM), Data-Driven Testing
Databases :	MySQL
Version Control & CI/CD :	Git, GitHub, Jenkins, Github Actions

EDUCATIONS

Allahabad State University Allahabad	May 2021 - May 2024
<i>Bachelor of Computer Applications (BCA)</i>	<i>CGPA : 7.4</i>

WORK EXPERIENCES

Quality Analyst Full-time	Jun 2025 - Present
<i>Revclerx Ai Solution Pvt Ltd</i>	<i>On-site • Mohali</i>

- Developed and maintained **Playwright automation scripts** using TypeScript for web application testing.
- Implemented **Page Object Model (POM)** and reusable components to improve test maintainability.
- Automated functional, regression, smoke, and end-to-end test scenarios for critical business workflows.
- Performed cross-browser testing and analyzed automation failures to identify application or script-related issues.
- Created test scenarios and test cases, executed manual/automated regression testing, and performed defect retesting.
- Reported and tracked defects using Jira and collaborated with developers to reproduce and validate fixes within Agile/Scrum sprints.

Technologies / Skills Used : Playwright, TypeScript, CI/CD, Github Actions

QA Tester Full-time	Jul 2023 - May 2025
<i>SM WEB SOLUTION PVT. LTD.</i>	<i>On-site • New Delhi</i>

- Designed and maintained automated test suites using **Java, Selenium WebDriver, and TestNG** for web applications.
- Developed reusable automation components using **Page Object Model (POM)** and data-driven testing approaches.
- Increased regression automation coverage from **30% to 85%** by automating high-value and repetitive test scenarios.
- Automated critical functional, regression, smoke, sanity, and end-to-end test scenarios across multiple application workflows.
- Integrated automated test execution with **Jenkins CI/CD** and managed source code using **Git/GitHub**.
- Analyzed automation failures, generated Extent Reports, and performed root-cause analysis for application and script issues.
- Reported and tracked defects using **Jira**, performed defect retesting, cross-browser testing, and supported release validation within Agile/Scrum teams.

Technologies / Skills Used : Java, Selenium, POM, API Testing, Manual Testing

PROJECTS

MINDMATRIX PRM PLATFORM	Mar 2026 - Present
--------------------------------	--------------------

Quality Analyst

- Performed functional and regression testing for **Partner Relationship Management** modules.
- Tested **Dashboard, Assets, Opportunities, Quote Requests, Products, Partners**, and localization features.
- Conducted responsive testing across **desktop** and **mobile views**.
- Tested **CRM-to-PRM data synchronization** and validated data consistency.
- Validated **CSV exports** against application data.
- Identified UI, data mapping, synchronization, localization, and business-rule defects.
- Performed staging validation, defect retesting, and regression testing.

Technologies / Tools Used : Web Testing, Playwright, API Testing, SQL

ALBA365 – POINT OF SALE PLATFORM	Jun 2025 - Mar 2026
---	---------------------

Quality Analyst

- Performed functional, regression, integration, and end-to-end testing for **POS applications**.
- Tested order management, payments, discounts, coupons, refunds, gift cards, store credit, cash drawer, KDS, table management, and reporting modules.
- Validated pricing, tax, discount, deal, payment, and transaction calculations.
- Tested Dine-In, Takeaway, Drive-Thru, Delivery, and Online order workflows.
- Performed API and database validation for **critical POS transactions**.
- Reported critical defects with detailed reproduction steps and expected/actual results.
- Performed defect retesting and regression testing for application releases.

Technologies / Tools Used : Selenium, TestNG, Postman, MySQL, Git, Jira, Jenkins, Java

INFO EXPRESS CRM	Jul 2023 - May 2025
-------------------------	---------------------

QA Automation Engineer

- Performed end-to-end manual and automation testing for CRM Express application workflows.
- Developed **Selenium automation scripts** using Java and TestNG for critical business functionalities.
- Implemented **Page Object Model (POM)** and reusable utilities to improve framework maintainability and reduce code duplication.
- Automated functional and regression scenarios and created data-driven test cases using TestNG.
- Managed automation dependencies and test execution using Maven and executed smoke/regression suites during releases.
- Performed API validation using Postman and cross-browser testing for application compatibility.
- Identified, reported, and retested defects using JIRA and participated in Agile/Scrum sprint activities.

Technologies / Tools Used : Selenium, Java, TestNG, Postman, Maven
